APPENDIX V:

LIBRARY FACILITY GUIDELINES

The following statements are intended to provide library boards and staff with some general guidelines for planning and operating library buildings:

☐ Library facilities are readily available to all residents of the library's service area.

☐ Sites for library facilities are selected using generally accepted criteria for library site selection including sufficient space for expansion.

☐ New facilities are planned to include provision for expansion to accommodate population growth and future changes in the areas served.

☐ The library facility has adequate space to implement the full range of library services consistent with the library's long range plan and the standards for Tennessee public libraries.

☐ The library building meets applicable local and state codes, including standard building and life safety codes.

☐ The library building meets provisions of federal and state requirements for physical accessibility, including the ADA Accessibility Guidelines for Buildings and Facilities (ADAAG) and the North Carolina Handicapped Code.

☐ Adequate and convenient parking is available to the library's patrons and staff on or adjacent to the library's site.

☐ The outside of the building is well lighted and identified with appropriate signs of high visibility.

☐ Service hours are posted at all entrances.

☐ The entrance is clearly visible and is located on the side of the building that most users approach.

☐ The library has proper temperature and humidity control throughout the year for the comfort of the public and staff, and for protection of library materials.

2014 Tennessee Standards for Non-Metropolitan Libraries
Tennessee State Library & Archives

50
- Interior lighting is evenly distributed and glare is avoided.

- The library has allocated space for child and family use, with all materials readily available, and provides furniture and equipment designed for children and persons with disabilities.

- The library building supports the implementation of current and future telecommunications and electronic information technologies.

- The library has public meeting space available for its programming and for use by other community groups.

- A book return is provided for returning library materials when the library is closed. After-hours material depositories are fireproof.

- The building is clean and well maintained. The library has a maintenance schedule for the site, building, and equipment.

- The library building is adequately secure and provides for safe use by public and the staff.

- Emergency procedures are in place, including emergency exits and plans for their use.

- The library has a disaster preparedness plan.

- The building and contents are insured.

- At least every five years, the library director and library board complete a written space needs assessment based on the following: current space requirements; community study findings; changes in access points, services, size of collections, types of materials; and staffing levels mandated the library's plan; and space requirements resulting from implementation of the standards in this document.

- On a more frequent basis, the library director, staff, and library board review the facility to ensure efficient space utilization.
