## Description of OverDrive Advantage 2.0:

- ***Custom collections for your library within the shared collection website.*** OverDrive Advantage is a program that enables members of OverDrive-powered shared collections or consortia to add a custom collection exclusively for their patrons. These individual libraries, upon enrolling in OverDrive Advantage, may purchase digital titles in formats that their shared collection supports (e.g., audiobooks, eBooks, music and/or video) and make them available to their patrons within their shared collection's OverDrive-powered "virtual branch" website.
- ***Benefits.*** Advantage members may reduce waiting lists by purchasing additional copies of popular titles and making them available only to their patrons. Advantage members may also create custom collections by purchasing titles that are not in the shared collection but are of interest to their community. The Advantage member library's titles will appear on the same OverDrive-powered website their patrons have always used, eliminating the need for additional URLs and links.
- ***Advantage 2.0 Titles and Materials.*** All material purchased by participating Advantage library are for the exclusive use of the Advantage library patrons. Advantage materials will not be visible to other consortia members. Advantage library patrons will be asked to sign into their library accounts in order to see the additional titles and to check out advantage material.
